The Formula Fun Grand Prix >>>

A fantastic event which works brilliantly in the Glen Luss Suite and car park at The Lodge on Loch Lomond hotel, with the backdrop of the loch!

The Pitch – Teams have 20mins to create a pitch which they must deliver to potential sponsors, detailing their motorsport team name, logo, strapline, branding, sponsorship package and associated benefits...

The Build - Teams are awarded funds based on the strength of their pitch which they must use to purchase “high-tech” materials to be used in the build of their formula fun race cart. Teams must use those high tech materials - cardboard, foam, tinfoil, cable ties etc - to turn their pedal karts into slick, stylish formula fun racers!

The Race - Full safety briefing, followed by “qualifying”, a practice session when everyone get a shot, and then teams must nominate their fastest drivers to compete. It is then a team endurance format with each driver completing a set number of laps of our track before handing over to their next team member. Loch Lomond Raft Race >>>

Our unique spin on this classic team building challenge – it works perfectly using the Glen Luss suite and the beach at the front of The Lodge on Loch Lomond Hotel.

The Pitch – Teams have 20mins to create a pitch detailing their team identity, logo and motto incorporated into the huge flag that will fly from their raft. They must deliver this pitch to our judging panel, in front of the other teams – always a really funny part of the event.

The Build – On top of the standard equipment, based on the strength of their pitch, teams are awarded extra materials to be used in the build of their raft (mainly for decoration purposes!). On completion of the build team members are each equipped with full safety gear; wet suit, helmet and life jacket.

The Race - Full safety briefing, followed by a practice session in the water for teams to test their rafts. Under the watchful eye of two safety boats manned with life guards teams will compete in a race taking them 150mtrs from shore, in the sheltered water of Luss bay, around a buoy and back again. The speed of the raft undoubtedly comes down to effective team work and communication!
